## ABOUT THE TRANSPORTATION INVESTMENT ADVOCACY CENTER (TIAC)

The Transportation Investment Advocacy Center™ (TIAC) is a first-of-its kind, dynamic education program and Internet-based information resource designed to help private citizens, legislators, organizations and businesses successfully grow transportation investment at the state and local levels through the legislative and ballot initiative processes.

The TIAC website, [www.transportationinvestment.org](http://www.transportationinvestment.org), helps transportation investment advocates to mount successful campaigns. It exists to put in one place—and promote the sharing of—strategies... sample political and communications tools... legislative and ballot initiative language... and information on where to obtain professional campaign advice, research and help. To receive free, regular email updates from the TIAC, subscribe to the TranspoAdvocates Blog ([www.transportationinvestment.org/blog](http://www.transportationinvestment.org/blog)).

TIAC staff produces regular research reports and analyses, hosts an annual workshop in Washington, D.C., and holds ongoing webinars for transportation investment advocates featuring case studies, best practices, and the latest in political and media strategies. State and local chamber of commerce executives, state legislators, state and local transportation officials, “Better Roads & Transportation” group members, industry and labor executives, and leaders of state and local chapters of national organizations who have an interest in transportation development programs are welcomed to participate.

The Center’s program of work is also guided by a Transportation Investment Advocates Council, a national network of business professionals and public officials who share a common interest in building support for transportation infrastructure investments in their state or local community— roads, bridges, public transit, pedestrian walkways and cycling paths, airports, waterways, ports and rail facilities.

TIAC is a project of the American Road and Transportation Builders Association’s “Transportation Makes America Work!”™ (TMAW) and supported through voluntary contributions and sponsorships.

To become a sponsor or to make a contribution, contact TIAC Director Carolyn Kramer ([ckramer@artba.org](mailto:ckramer@artba.org) , or at 202-289-4434). ## 2018 State Transportation Funding Overview

Since the start of 2018, TIAC has tracked 214 transportation funding bills being considered in 40 states. Nineteen states have approved 27 measures to increase funding.

Legislation to increase or adjust the state motor fuel tax was introduced 26 times in 12 states. One state— Oklahoma— approved a state gas tax increase. Another state— Missouri— is asking voters to approve a 10 cents-per-gallon gas tax increase on the November 2018 ballot. Additionally, Georgia approved extending the portion of its variable-rate formula indexed to the Consumer Price Index until 2022 (previously set to expire on July 1, 2018).

One-time funding (47) and non-fuel tax recurring revenue (37) were the most popular types of legislation to introduce during the 2018 legislative session. Nine one-time funding bills were approved in Georgia, Colorado, Mississippi, Michigan, North Carolina, Connecticut, and Minnesota, with an additional bill pending voter approval in Maine. Seven non-fuel tax recurring revenue bills were approved in Utah, Connecticut, Oregon, Kansas and Mississippi.

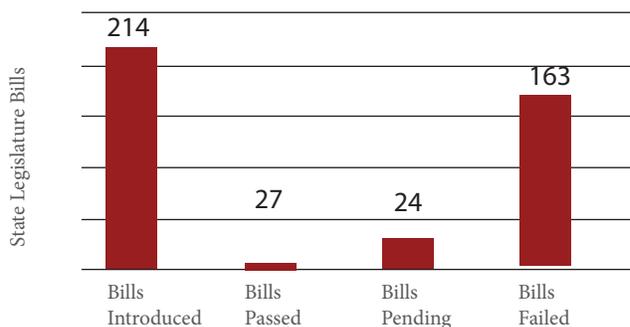

Fees on electric vehicles continued to be a topic of interest in 2018. Fourteen bills were introduced in 12 states, with legislation in Mississippi and Utah approved. Both states included a fee for hybrid vehicles as well.

Of the legislation proposed in the 2018 legislative session, 159 bills never advanced beyond the first chamber floor.

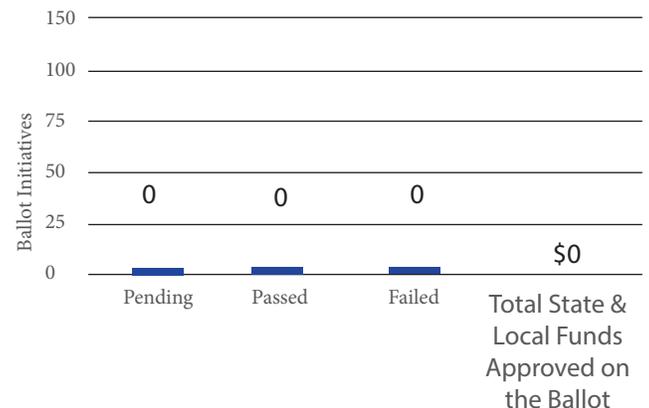

All but eight states have adjourned for the year, with two states (Florida and Kentucky) already beginning prefile for the 2019 legislative session. Only two states— New Jersey and Virginia— carry over legislation from 2018 to 2019. Statewide ballot measures are pending in Louisiana, Maine, Missouri, Colorado, Connecticut, and California.

**Estimated Total Funding Approved in 2018 Legislative Session: \$6,815,741,600**

**Notes :** • Have the state borrow \$300 million from the gaming bond sinking fund, with \$50 million to be spent on specific projects and \$250 million going into a special MDOT fund for emergency projects statewide.

- Divert 35 percent of the state's 7 percent use tax on internet and out-of-state sales to cities, counties and the Local System Bridge Program. This share would mean approximately \$110 million a year with a good possibility for growth. This spending would be phased in adding 25 percent a year over four years.
- Split the use tax diversion 15 percent to cities, 15 percent to counties and 5 percent to the Local System Bridge Program
- Give Mississippi's roughly 300 cities \$10,000 each "off the top" of the use tax diversion, then the rest would be allocated based on their sales tax collections and population.
- Create a new tax on hybrid and electric cars. Electric auto owners would pay \$150 a year, hybrid owners \$75 a year. This would be indexed for future growth.
- The state would continue to collect the .4 cents a gallon on the 18.4 cent gas tax even when the environmental mitigation fund maximum of \$10 million is reached.
