ABOUT THE TRANSPORTATION INVESTMENT ADVOCACY CENTER (TIAC)

The Transportation Investment Advocacy Center ™ (TIAC) is a first-of-its kind, dynamic education program and Internet-based information resource designed to help private citizens, legislators, organizations and businesses successfully grow transportation investment at the state and local levels through the legislative and ballot initiative processes.

The TIAC website, www.transportationinvestment.org, helps transportation investment advocates to mount successful campaigns. It exists to put in one place—and promote the sharing of—strategies… sample political and communications tools… legislative and ballot initiative language… and information on where to obtain professional campaign advice, research and help. To receive free, regular email updates from the TIAC, subscribe to the TranspoAdvocates Blog (www.transportationinvestment.org/blog).

TIAC staff produces regular research reports and analyses, hosts an annual workshop in Washington, D.C., and holds ongoing webinars for transportation investment advocates featuring case studies, best practices, and the latest in political and media strategies. State and local chamber of commerce executives, state legislators, state and local transportation officials, “Better Roads & Transportation” group members, industry and labor executives, and leaders of state and local chapters of national organizations who have an interest in transportation development programs are welcomed to participate.

The Center’s program of work is also guided by a Transportation Investment Advocates Council, a national network of business professionals and public officials who share a common interest in building support for transportation infrastructure investments in their state or local community—roads, bridges, public transit, pedestrian walkways and cycling paths, airports, waterways, ports and rail facilities.

TIAC is a project of the American Road and Transportation Builders Association’s “Transportation Makes America Work!”™ (TMAW) and supported through voluntary contributions and sponsorships.

To become a sponsor or to make a contribution, contact TIAC Director Carolyn Kramer (ckramer@artba.org, or at 202-289-4434). Also contact Ms. Kramer if you have questions or comments about any reports or case studies published through the TIAC, or would like more information on the program and the Council.
January 2020 State Transportation Funding Overview

Lawmakers in 24 states introduced nearly 100 transportation funding measures in January, according to analysis by ARTBA’s Transportation Investment Advocacy Center® (ARTBA-TIAC).

A bill in Maine to establish a transportation funding commission, with a report due to the legislature by March, has already been approved and signed into law by the Gov. Janet Mills (D).

An Arizona bridge funding bill and an Idaho sales tax increase for transportation have each advanced from their chamber of origin.

The remaining bills are still in the early stages of the legislative review process. Dozens more bills are expected to be introduced as the year progresses.

In addition to these legislative measures, Michigan will issue $3.5 billion in bonds to add and expand 122 major state road projects. The plan was approved by the State Transportation Commission and did not require a legislative vote.

States are exploring a multitude of funding options to start the year.

• Eight states have proposed 13 bills to raise or adjust their motor fuel taxes. Five of those states have proposed converting to or adjusting an existing variable-rate motor fuel tax formula.

• Thirteen non-fuel tax recurring revenue bills (vehicle registration fees, license fees, severance taxes, among other mechanisms) have been introduced in nine states.

• Six states have proposed 34 bills to utilize one-time funding such as bonds or appropriations to provide transportation revenue. Twenty-seven of those bills are in Arizona alone.

• Building on a trend from previous years, five states introduced six bills to implement a fee on electric vehicles. Twenty-eight states now have an electric vehicle fee.

• Several states are also considering other innovative funding solutions, including mileage-based user fee studies or pilot programs.

See page 56 for a list of approved transportation funding legislation.

Funding Approved in 2020 Legislative Session: $3,500,000,000

Bill Number: SB 86
Funding Category: Other
Sponsor: Gerald Dial
Introduced Date: 01/09/2018
Last Action: Engrossed - (03/27/2018)
Notes: This bill would establish the Alabama Road and Bridge Rehabilitation and Improvement Authority for the purposes of establishing a local and state program for financing the rehabilitation and improvement of roads and bridges throughout the state by the issuance of the debt obligations which shall be payable solely from proceeds from any new levy of gasoline and diesel fuel excise taxes and fees appropriated, allocated or made payable in whole or in part to the authority by an act of the Legislature.

Status: ✅

Jurisdiction: AL
Bill Number: SB 100
Funding Category: Other — Infrastructure Bank
Sponsor: Arthur Orr
Introduced Date: 01/09/2018
Last Action: Signature Requested - (03/15/2018)
Notes: Under existing law, the Alabama Transportation Infrastructure Bank was established pursuant to Act 2015-50. Various sources of funding were authorized to capitalize the bank including revenue from one cent of the gasoline tax and a portion of the revenue from the license and registration fees on trucks and truck tractors. The bank is authorized to make loans to units of government to construct, operate, or own transportation projects. The bank is authorized to raise funds for qualified projects by the issuance of bonds. At the current time, funding has not been made available to capitalize the bank. This bill would further provide for the Alabama Transportation Infrastructure Bank. The bill authorizes additional tax revenue to be pledged to pay and secure revenue bonds issued by the bank as determined by the Director of Transportation and approved by the Governor, including certain taxes on motor vehicle licenses and registration, certain taxes on diesel fuel and gasoline, and certain fees on identification markers. The bill would also provide for the operation of the bank.

Bill Number: SB 1024
Funding Category: Local Funding

Sponsor: Steve Farley
Introduced Date: 12/12/2017
Last Action: senate second reading - (01/09/2018)
Notes: This bill would establish the local transportation assistance fund, which would consist of revenues transferred from the state general fund, appropriations and interest earned on fund revenues each year. Transfers to the local transportation assistance fund each year will consist of at least $18 million and up to $41 million from the state general fund, which will be reimbursed by state lottery fund revenues.

Status:

California

Jurisdiction: CA
Bill Number: AB 3165
Funding Category: Recurring Revenue - Other

Sponsor: Friedman
Introduced Date: 02/16/2018
Last Action: Died at Desk. - (11/30/2018)
Notes: Currently, the State Energy Resources Conservation and Development Commission is required to allocate $20 million annually until there are at least 100 publicly available hydrogen-fueling stations in the state. Current law also provides that the commission may halt funding for those stations if it determines that the private sector is establishing publicly available hydrogen-fueling stations without the need for government support. This bill would delete the provision allowing the commission to halt funding for hydrogen-fueling stations.

Status:
Jurisdiction: CA
Bill Number: SB 1384
Funding Category: Recurring Revenue - Other

Sponsor: Patricia C. Bates
Introduced Date: 02/16/2018
Last Action: From committee without further action. - (11/30/2018)
Notes: This bill would create the Repatriation Infrastructure Fund, and require the Department of Finance to estimate the amount of annual revenue to be received from state taxes in the next fiscal year if a federal corporate repatriation statute were enacted; these state taxes would be on foreign earnings of United States-based corporations that are currently invested abroad. Through July 1, 2025, repatriation revenues not allocated for education or the Budget Stabilization Account would be transferred to the Repatriation Infrastructure Fund in the State Treasury, and these revenues would be continuously appropriated to an unspecified entity for expenditure on infrastructure projects.

Status: 

Jurisdiction: CA
Bill Number: SB 1328
Funding Category: Road Usage Charge ; Task Force/Study

Sponsor: Jim Beall
Introduced Date: 02/16/2018
Last Action: Approved by the Governor. - (09/22/2018)
Notes: Under existing law, the Road Usage Charge (RUC) Technical Advisory Committee is charged with studying RUC alternatives to the gas tax and making recommendations to the Secretary of the Transportation Agency on the design of a pilot program, with these provisions expiring on January 1, 2019. This bill would extend the operation of these provisions until January 1, 2023, and would also require the committee to assess the potential for mileage-based revenue collection as an alternative to the gas tax.

Status: 

Jurisdiction: CA
Bill Number: AB 1
Funding Category: Recurring Revenue - Registration Fee, Weight Fee ; Fuel Tax (gas, diesel, liquid fuel)

Sponsor: Jim Frazier
Introduced Date: 12/05/2016
Last Action: From committee: Filed with the Chief Clerk pursuant to Joint Rule 56. - (02/01/2018)
Notes: Creates the Road Maintenance and Rehabilitation Program, which would require the California Transportation Commission to adopt performance criteria for use of program funds. This bill would also increase the gas tax by 1.2 cents per gallon, increase the annual vehicle registration fee by $38, and implement a new $165 annual vehicle registration fee for zero-emission motor vehicles, all with inflation adjustments.

Status: 

Jurisdiction: CA

Bill Number: SB 337

Sponsor: Patricia C. Bates

Introduced Date: 02/13/2017

Last Action: Returned to Secretary of Senate pursuant to Joint Rule 56. - (02/01/2018)

Notes: Creates the Repatriation Investment Fund in the State Transportation Fund, which would utilize revenue to be received by state taxes in the next fiscal year as a consequence of enactment of a federal corporation repatriation statute pursuant to which foreign earnings of United States-based corporations that are currently invested abroad are moved to the United States. Apportioned as follows:

- 65% to trade corridor improvement projects;
- 30% by the Controller to cities and counties for local streets and roads pursuant to current formulas specified in the bill; and
- 5% by the Controller to transportation planning agencies for allocation to transit operators for public transportation pursuant to current formulas specified in the bill.

Status:

Jurisdiction: CO

Bill Number: SB 18-001

Funding Category:
One-Time Funding — Bond

Sponsor: John B. Cooke III

Introduced Date: 01/10/2018

Last Action: Governor Signed - (05/31/2018)

Notes: To provide revenue from the state's general fund— $495 million in 2018, $150 million in 2019, and $50 million annually thereafter— and a $3.25 billion bond in order to fund transportation projects throughout the state. The bond, which would be subject to voter approval in 2019, will only go forward if both transportation ballot measures on the November 2018 ballot fail to generate enough voter support to pass.

Original bill: Would divert 10 percent of state sales and use tax net revenue to the state highway fund, with revenue used primarily to pay back transportation bonds. The bill would create a November ballot measure asking voters to approve $3.5 billion in transportation fund bonds.

Notes:
Currently, the tax imposed on motor fuel used or consumed in this state is 17 cents per gallon. Beginning January 1, 2019, this bill increases the tax on motor fuel up to three cents per gallon per year until the total increased motor fuel tax revenue equals the total income tax revenue reduction from the decrease in the top tax rate of the individual income tax. The bill removes the income trigger of $150 million net General Revenue growth before the 1/10% reduction in the individual income tax rate can occur each year for five years. [This bill is the same as HB 993 (2017)].

This bill creates the "Transportation Project Fund" for use in transportation purposes approved by the General Assembly in the appropriation process. Moneys in the fund consist of specified tax credit savings if such savings exist during the relevant fiscal year. The savings calculation is based on a decrease in the redemption of tax credits from fiscal year to fiscal year. The Department of Economic Development will provide the Department of Revenue with the relevant calculation.

Upon voter approval, this proposed Constitutional amendment would authorize the expenditure of state funds by the Department of Transportation for use in constructing and operating toll roads approved by the federal government and the General Assembly on interstate or four-lane roads, with the restriction that toll rates be set by the Missouri Highways and Transportation Commission subject to legislative approval and that tolls be collected only at the entrances to interstates or four-lane roads.

This bill would establish a "miles driven" fee to be paid at the time of registration of a motor vehicle with a model year of 2020 and later; these revenues will be deposited into the state road fund.

Notes:
• Have the state borrow $300 million from the gaming bond sinking fund, with $50 million to be spent on specific projects and $250 million going into a special MDOT fund for emergency projects statewide.
• Divert 35 percent of the state's 7 percent use tax on internet and out-of-state sales to cities, counties and the Local System Bridge Program. This share would mean approximately $110 million a year with a good possibility for growth. This spending would be phased in adding 25 percent a year over four years.
• Split the use tax diversion 15 percent to cities, 15 percent to counties and 5 percent to the Local System Bridge Program
• Give Mississippi's roughly 300 cities $10,000 each “off the top” of the use tax diversion, then the rest would be allocated based on their sales tax collections and population.
• Create a new tax on hybrid and electric cars. Electric auto owners would pay $150 a year, hybrid owners $75 a year. This would be indexed for future growth.
• The state would continue to collect the .4 cents a gallon on the 18.4 cent gas tax even when the environmental mitigation fund maximum of $10 million is reached.
• Use newly legalized casino sports betting taxes for infrastructure.
