VARIABLE-RATE ADJUSTMENTS: 2013-2021

DATE	STATE	MEASURE
March 19, 2015	Vermont*	House File 488 created a floor on the Motor Fuel Transportation Infrastructure Assessment (a 2 percent tax on the state average retail price of motor fuel, dedicated to the Transportation Infrastructure Bond Fund— one of two variable-rate taxes collected on the state's motor fuel, in addition to a flat-rate excise tax on gasoline and diesel), so that the minimum the tax can collect on is \$3.96 per gallon.
March 25, 2015	Kentucky	House Bill 299 raised the floor on the gas tax so it cannot collect less than 26 cents-per-gallon. The bill also adjusts evaluation to an annual basis, and restricts the tax from increasing or decreasing more than 10 percent per year.
March 26, 2015	North Carolina	The state gas tax is calculated based on changes in both the national Consumer Price Index (making up 25 percent of the new tax) and in the state population (making up 75 percent of the tax). This new formula would replace the state's previous variable-rate tax, based on the average wholesale price of fuel.
March 8, 2017	Utah*	Adjusts 2015 bill to increase the variable-rate tax to 16 percent of the average wholesale price of gasoline, and lower the trigger price to \$1.78 per gallon (expected to kick in on Jan. 1, 2019).
June 22, 2017	West Virginia	Alter the variable-rate state gas tax component (an additional 5 percent tax on the average wholesale price of gasoline, on top of the 20.5 cents-per-gallon flat excise tax) by raising the floor price (the minimum the tax can be charged at) from \$2.34 per gallon to \$3.04 per gallon. The resulting calculation would ensure that the variable-rate tax would never be less than 15.2 cents-per-gallon
